Bike ability for years 5 & 6

On Monday 6th of October bike ability for year 5 and 6 started . The Monday was to teach us children how to keep control of our bikes properly and how to do an emergency stop. We all succeeded and passed level 1. John and Paul, who were our teachers ,took us on the road on the Tuesday. We were all very interested in how to do a u turn. we all mastered that, easy peasy! Wednesday, we started riding on the major road .We put all what we learnt on day one to the test. Two riding positions were used, normal and take the lane also signaling to the left and right. Thursday we were taught how to turn into a minor road .This taught us all a lesson; we must check behind us ! Friday we wrapped it up with all we had learnt and cycled on our busiest junction yet.
